“ I have so many wonderful memories to share but my favorite memory is when George and I worked at the Bridgeport Elementary School "year's ago" George was working outside and I worked inside stripping and waxing floor's. George came inside to cool off a little and pick on us that was doing the floors. George got this great idea of how we could mix up some different Chemical's to mop the floors with and get the old wax off of the floors quicker so...We started pouring all kinds of stuff together in the mop bucket !!! Well...it didn't take long that smoke started rolling up like witches brew. George yelled RUN...He kicked the door to the mop closet shut and before we could turn and run, THE DOOR BLEW OPEN !! It scared us all so bad but we couldn't help laughing !
Rest In Peace George. You were loved by everyone that knew you and will be missed by us all !!!!!
