“ My late husband, Ralph Gunter, used to shoe horses for Fud and always enjoyed seeing him and Karen. I've no doubt that he and Fud are already giving a number of angels a run for their money. My prayers for you and your family-- may you know the comfort of good memories and God's love.

“ I enjoyed bass fishing with Fudd. We had a great time talking about so many topics during our time together. I remember the 1st time we fished together. When he called me he said he had found a bunch of bass hitting a red crank bait. When I got to his place he had me one of the baits bought to use. as we started fishing Fudd did not use the bait the fish were biting. He fished with another bait so I could catch fish. I caught 7 really nice fish before he would use the bait he bought for me. He was more concerned for me to catch fish than himself. That is the kind of friend was was to everyone. Put others first. I miss him and will never forget the times we spent fishing together.
