“ *I have so many wonderful memories of Glenda Faye. School-time memories of staying over night with each other time after time brings smiles. She dealt with diabetes from the time I knew her in elementary school and the occasional indulgence of a candy bar, especially before having to visit Dr. Grote, was just Glenda. She knew household responsibilities at such a young age since her mother had to work. She braved this and accomplished this job with her great big smile. I just loved Glenda Faye. I didn't see her much after school but I knew she was out there on that mountain and I'm going to miss her so much.*
