“ *I was saddened to learn of my cousin's passing. Many of my cherished memories are of Buddy and Mildred when they lived with my family in Dayton Ohio back on the 50's. still remember my dad and I laying roof on his garage back in 1961. my love to the family...did find photo of Buddy, Leona And Veda and Uncle Roy which I've treasured...Charlie Lee Graham, Jr*

“ *Bud was a really great guy. I had the priveledge to work with him at Cornelius Co back in the early 70"s and met him again a few years ago at our local airport while I was attempting to learn to fly. We would sit and talk about flying, family and friends and on occasion we would walk over to his hanger and he would show me his airplane. After that I would always ask Bud if he was ready to sell me his plane, he would just laugh and say no. He was a true aviator and a friend to all that met him and will be sorely missed.*

TV

“ My husband "Spike" and I loved Bud. Spike is a pilot with Air Evac and I am a nurse with Air Evac. When we were based at the airport, Bud came to see us ever day. When we first moved away from the airport he came several times a week. As time went by he didn't come as often but we still saw him at least once a week. He was part of our Air Evac family and will be greatly missed. Bud is now flying with his own wings!!! Love you Bud, until we meet again.
